Personal summary

Quantitative researcher with a PhD in Economics and Quantitative Methods and experience across academia, technology and financial services. Skilled in econometric analysis, complex data management and communicating technical findings in international environments.

Education

Feb 2023–Jun 2026 **PhD in Economics and Quantitative Methods**
University of Genoa Genoa, Italy

Dec 2018–Mar 2021 **MSc in Economics and Political Science**
University of Milan Milan, Italy

Sep 2015–Nov 2018 **BSc in International Science, Development and Cooperation**
University of Turin Turin, Italy

Oct 2017–Mar 2018 **Exchange Program**
University of Hamburg Hamburg, Germany

Professional experience

Dec 2026–Present **Research Analyst**
Crisil Integral IQ Wrocław, Poland

- Analyse macroeconomic developments, economic indicators and policy trends across developed and emerging markets, assessing implications for financial markets and economic outlooks.
- Contribute to macroeconomic forecasts, thematic research and country-level assessments using econometric modelling and time-series and panel-data techniques.
- Gather, validate and maintain macroeconomic datasets from public and proprietary sources to support economic analysis.
- Prepare economic commentary, research notes, charts and presentations, contributing to regular publications.

Feb 2023–Jun 2026 **PhD Researcher / Quantitative Analyst**
University of Genoa Genoa, Italy

- Conducted applied microeconomic research using longitudinal household survey data and firm- and investor-level microdata.
- Developed empirical strategies and applied linear and nonlinear fixed-effects models, count-data models and survival analysis.
- Cleaned, harmonised and analysed complex cross-country microdata using Stata and Python.
- Produced three empirical research papers and communicated findings through written outputs and presentations to academic audiences.

Sep 2024–Jul 2025 **Visiting Researcher**
Zhejiang International Studies University Hangzhou, China

- Collaborated on an international research project concerning Family Offices, entrepreneurial finance and ESG-related investment.
- Helped construct and validate an original dataset of more than 2,800 Family-Office-backed direct investments.
- Conducted econometric analysis and contributed to the interpretation and presentation of the findings.

Jul 2022–Dec 2022 **Mutual Funds Analyst**
Infosys BPM Dublin, Ireland

- Analysed investment fund prospectuses in German and English to extract and validate financial information for client databases.
- Processed and maintained high-quality financial data under strict quality and accuracy standards.
- Supported onboarding and training activities for new team members.

Dec 2021–Jun 2022 **Application Development Analyst**
Accenture Technology Rome, Italy

- Worked on applications supporting large-scale data workflows and storage systems.
- Used SQL, Scala, Spark, Hadoop, Oracle, and Unix-based environments in enterprise data infrastructures.
- Contributed to debugging, optimisation, and integration of data-processing applications.

Working papers

- *Inherited Housing and Household Investment: Evidence from Germany and Spain* (Job Market Paper), 2026.
- *From Private Wealth to Patient Capital: Family Offices in Entrepreneurial Finance*, 2026 (with Emma Li, Haoyong Zhou).

Conference presentations

- HEC Liège Young Researchers Conference in Economics (HYRCE), Liège, Belgium (16–17 Apr 2026): "Inherited Housing, Collateral, and Household Wealth Accumulation".

Technical skills

Programming: Stata; Python; R; SQL
Econometrics: Panel data; causal inference; time series analysis; statistical modelling; policy evaluation
Data technologies: Scala; Spark; Hadoop; Impala; Kudu
AI-assisted analytics: Generative AI tools for research support, coding assistance, workflow automation, and data exploration
Tools: Git/GitHub; Linux/Unix; Bloomberg Terminal; LaTeX; Microsoft Office

Additional training

- Time Series Models for Macroeconomic Analysis, Barcelona School of Economics (Jun 2024).
- Macroeconomic Forecasting and Analysis in the Machine Learning Era, Italian Econometric Association (Jul 2023).
- Explainable Machine Learning, Universidad Politécnica de Madrid (Jun 2023).
- Empirical Industrial Organisation, University of East Anglia (Feb–Mar 2023).
- Industry Training – Data Analyst Junior, Biogem Life and Mind Science School (Sep–Nov 2021).
- Blockchain – Linking Economics, Technology and Law, University of Zurich (Jul 2020).

Languages

Italian (native); English (C2); German (B2); French (B1)
